/**Bikesh Kumar** /Bikesh Kumar

CAREER OBJECTIVE

Motivated B.Tech Computer Science student seeking a 4-week Industrial Training in Machine Learning / Artificial Intelligence / Data Science to gain practical industry exposure and apply knowledge of Python, machine learning, and data analysis in real-world projects.

SKILLS

- **Programming Languages:** Java, Python
- **Machine Learning :** ScikitLearn, Pandas, Numpy, Matplotlib
- **Algorithms :** Logistic Regression, Naive Bayes, Decision Tree, Random Forest
- **Data Processing** : Data Cleaning, Feature Engineering, Model Evaluation
- **Fronted:** = HTML, CSS, JavaScript(ES6+)
- **Backend:** php
- **Database:** SQL
- **Tools & Others:** GitHub,Vs-Code, Jupyter Notebook

ACADEMIC MACHINE LEARNING PROJECTS

Credit Card Fraud Detection

- Developed fraud detection model using Regression and Random Forest.
- Performed preprocessing, imbalance handling, and evaluation.

Customer Churn Prediction

- Built a predictive model to identify churn behavior.
- Applied feature selection and compared ML algorithms.

Spam SMS Detection

- Developed NLP-based spam classifier using TF-IDF and Naive Bayes.
- Implemented real-time prediction functionality.

ADDITIONAL PROJECTS

- **Portfolio Website**

  Designed and developed a personal personal portfolio using HTML and CSS.

EDUCATION

- B.Tech CSE | Maharishi Markandeshwar (Deemed to be) University Running(4th sem)
- XII (NEB) | GreenLand Secondary School Biratnagar,Morang Nepal
- *X (NEB) | Monastic Secondary English Boarding School, JanakpurDham Nepal*
